NFPA HAZARD RATING:

Health: 2 (Moderate)
Fire: 0 (Minimal)
Reactivity: 0 (Minimal)

CONSULT SDS FOR FURTHER DETAILS.

DOT HAZARD CLASS: None

SONATA CONTAINS:

Oleyl Imidazoline Quaternary C.A.S. #72749-55-4
Hexylene Glycol C.A.S. #107-41-5
Dipropylene Glycol Mono-methyl Ether C.A.S. #112-34-5

*Premium Drycleaning Detergent
For Perchloroethylene Solvent*

1

Sanitone Sonata 8900, for use in perchloroethylene solvent, is the latest advancement in the cationic no-charge chemistry originated by Sanitone research.

This fifth generation product contains special oleochemical surfactants and softener/antistat plus optical brightener to produce cleaner whites and brighter colors. Since Sonata is substantive to the fabric, garments have a pleasing hand and are easier to finish, resulting in greater customer acceptance.

Sanitone Sonata is added directly to each load based on the weight of garments being cleaned by means of an automatic injector.

For technical assistance or to order product contact your Sanitone Area Sales/Service Manager or call 1-800-543-0406.
